

FULL TRACEABILITY - FROM SEED TO SHELF™

In order to make the highest quality CBD products, we believe it is imperative to be a part of every step of the supply chain process. That's why, from harvesting our hemp seeds to laboratory testing for quality to distributing our exceptional finished products, we are committed to going the extra mile. It's our commitment to you.

HARVEST THE SEEDS

Using EU-certified hemp seeds, we have exclusive contracts with a co-op of local farmers in Europe.

EXTRACT THE OIL

At an on-site European ISO certified Facility, we use CO2 Extraction.

IMPORT THE OIL

We import our CO2-extracted oil directly to our state-of-the-art laboratory.

TEST THE OIL

We test for cannabinoid content, pesticides, contaminants, heavy metals and solvents.

HAVE AN INDEPENDENT LAB TEST THE OIL

We send our oil to a third party laboratory to verify concentration, quality and safety.

FILTER & CONVERT THE OIL

Through a proprietary chemical-free process, we convert our raw CO2-extracted oil into varying concentrations of our hemp-derived CBD oil.

FORMULATE OUR PLUSCBD OIL™ PRODUCTS

We formulate and bottle our CO2-extracted PlusCBD Oil™ line at a cGMP and NSF-certified facility.

DISTRIBUTE OUR PRODUCTS TO YOUR SHELF

From Seed to Shelf™, we guarantee the highest quality hemp-derived CBD oil products.
